# Welcome

Clear Creek, Clear Lake, and Galveston Bay offer countless recreational opportunities.

Bay Area Houston— home to one of the largest concentrations of marinas and recreational boats in the U.S.

## Waterways to explore

### Creeks & Bayous

The creeks and bayous surrounding Clear Lake offer a variety of scenic places to paddle, fish, and explore by boat. Paddle trails, guided kayak and pontoon boat tours, and stand-up paddle board rentals provide many options to enjoy time on the water.

### Clear Lake

Clear Lake is a 2,000-acre brackish water lake that empties into the west side of Galveston Bay before opening up to the waters of the Gulf of Mexico. Watch sailboats sail across the water at the weekly Wednesday Night Races on Clear Lake.

### Galveston Bay

The Galveston Bay system consists of four main sub-bays: Galveston Bay proper, Trinity Bay, East Bay, and West Bay. They cover approximately 600 square miles. This complex mixing of waters provides a nursery and spawning grounds for marine life including crabs, shrimp, oysters, and many varieties of fish.

# Waves of happiness

## the water starts here

From heart-pumping thrills on the water to the calming rhythm of gentle waves, the cities of Bay Area Houston—Kemah, League City, Seabrook, Nassau Bay, and Clear Lake Shores—offer more than 35 miles of waterfront bliss.

# Armand Bayou Paddle Trail

*The Armand Bayou Paddling Trail follows Armand Bayou near its confluence with Clear Lake, through the Armand Bayou Nature Center, to Horsepen Bayou.*

Located north of Clear Lake, the Armand Bayou Paddling Trail area is part of the Armand Bayou Coastal Preserve. More than 220 species of birds are found in the area, including osprey, roseate spoonbill, various egrets, herons, and pelicans. The preserve offers a stunning glimpse into two increasingly rare ecosystems—riparian coastal flatwoods forest, and coastal tall grass prairie.

## TRAIL NOTES

The trail follows Armand Bayou and paddlers can choose to paddle any length depending upon what they want to see and how long they want to paddle.

The most popular launching point is Bay Area Park, located where Bay Area Blvd. crosses Armand Bayou. Paddlers can either paddle upstream—following Armand Bayou as it meanders, and narrows to the ending point at Marker #26—or, paddlers can paddle downstream from the park. As you paddle downstream, the bayou widens near the confluence with Clear Lake at Marker #1.

If you want to paddle the entire trail, you can put in at Clear Lake Park, located on NASA Road 1, and paddle upstream. The trail is several miles long, we recommend dropping a vehicle at Bay Area Park, approximately half way up the trail.

Paddlers should always wear life jackets, and take plenty of sunscreen and water.

# Clear Creek Paddle Trail

*The Houston area's best-kept secret, this scenic trail runs through a thriving ecosystem and paddlers will enjoy seeing an abundance of wildlife.*

## Clear Creek Paddle Trail

The Clear Creek Paddle Trail meanders 5.5 miles through Clear Creek starting at Countryside Park and ending at Heritage Park.

Paddlers will enjoy scenic views along their journey and may spot some of the wildlife that live in and around the creek, including wading birds, alligators, and deer. There are

multiple parks along the trail where you can stop for a picnic to recharge and relax.

Clear Creek creates a natural northern border for League City and feeds into Clear Lake. Much of the paddle trail is flanked by dense trees and foliage with an abundance of subtropical plants

and local wildlife. Over 250 species of birds have been spotted around the Clear Creek Nature Center, near the middle of the trail. Fishing is very popular either from the shore or by boat. Catfish, sunfish, crappie, and bass are all swimming beneath the surface.

## Launch Sites

Start your journey from one of three Clear Creek Paddle Trail launches in League City

### Countryside Park

Launching from Countryside Park brings paddlers through portions of the creek walled in tightly by dense trees, bushes, and grasses. It has a distinct bayou feel and is incredibly scenic and peaceful. Parking here is easy and close to the water. Note: When water levels are low, it is more challenging to launch from this site.

100 Alderwood Street

### Walter Hall Park

Launching from the trail's mid-point gives paddlers the option of heading west, taking them further into the creek and its walls of trees, or heading east and paddling toward Clear Lake. This direction also leads to Heritage Park, where you can get out and enjoy a picnic, visit the turtle pond, or just take a break before heading back.

807 Hwy 3 North

### Heritage Park

Head west after launching from Heritage Park and paddle through wider sections of the creek. Make your way beneath Hwy 3, and encounter flocks of swallows flitting in and out of nests they've built on the underside of the bridge. Keep your eyes peeled for gators in this area. They often stay very still and can be hard to spot.
